Professional Summary

Motivated Computer Science undergraduate with hands-on experience in Python, backend development, full-stack web development, and AI-powered solutions. Proficient in building scalable applications using FastAPI, Node.js, React, and modern AI technologies, with a strong foundation in Data Structures, Algorithms, and software engineering principles.

Technical Skills

Programming Languages: Java, Python, C, JavaScript
Web Technologies: HTML, CSS, JavaScript
Frameworks & Tools: React, Node.js, Express.js, FastAPI, REST APIs, Git, GitHub, VS Code
Mobile Development: Android Studio, Kotlin
AI & Machine Learning: Google Gemini API, RAG, NLP, ChromaDB, Edge Impulse
IoT: ESP32-CAM, Arduino Uno, Embedded Systems
Databases: PostgreSQL, MySQL, MongoDB

Education

Bachelor of Technology (B.Tech) — Computer Science and Engineering

Kakatiya Institute of Technology, Warangal

2023 – 2027

CGPA: 8.10 (up to 5th semester)

Internship Experience

Full Stack Web Development Intern

Apr 2026 – Oct 2026

Unified Mentor Pvt. Limited

- Developed modern full-stack applications including RentEase and an Elderly Healthcare Nursing Platform using React.js, Node.js, Express.js, and MongoDB.
- Focusing on responsive user interfaces, RESTful APIs, authentication, and database integration for scalable web applications.

Backend Developer Intern

Jun 2026 – Jul 2026

CodeAlpha (Virtual Internship)

- Developed RESTful APIs using Node.js, Express.js, and database integration.
- Implemented authentication and backend functionalities for web applications.

Industrial IoT Intern

May 2025 – June 2025

National Institute of Technology (NIT) Warangal

- Refined edge AI and IoT solutions using ESP32-CAM, Arduino Uno, and Edge Impulse.
- Implemented real-time machine learning inference on embedded devices.

Projects

AI-Powered Sign Language Translator

- Built an ESP32-CAM based sign language translator with Edge Impulse (**Hardware System**) and developed an Android app to recognize gestures and convert them into text (**Software System**).

MediAI – AI Medical Assistant Platform

Live Demo — GitHub

- Developed a full-stack AI-powered medical assistant using **FastAPI, React, PostgreSQL, and JWT Auth**.
- Integrated **Google Gemini, RAG, ChromaDB, OCR, and NLP** for intelligent medical guidance and report analysis.

Full Stack Web Applications

Live Demo — GitHub

- Built **RentEase and an Employee Tracking System** using MongoDB, Express.js, React, and Node.js.
- Engineered an Elderly Healthcare Nursing Platform with secure authentication, appointment scheduling, and responsive dashboards for efficient healthcare management.

Achievements & Activities

- Participated in Smart India Hackathon (SIH) 2025.
- Received Backend Developer Certification and Letter of Recommendation from CodeAlpha.
- Completed NPTEL Certification in Database Management Systems (2025).
- Actively preparing for Software Engineering interviews with focus on Data Structures and Algorithms.
